Installation guide

Follow the numbered original diagrams. Use the screws and fasteners specified at each step; their original labels are retained. The radio is not included in the installation kit.

1. Put the main unit and metal bracket together, then connect the connection cable to the main unit.

2. Attach the mounting plates to the main unit.

3. Join the main unit to the rotary mechanism part shown in the diagram.

4. Secure the illustrated rotary mechanism part to the main unit.

5. Join the radio main unit and monitor stand together.

6. Install the metal frame in the car and put the main unit inside the metal frame.

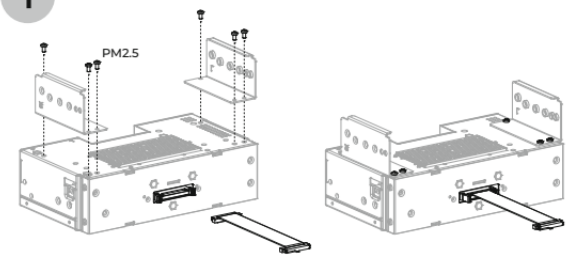

7. Join the display and display holder together.

8. Install the radio main unit and secure the display.
